

MUST HANG.

Durrant Convicted of Murder at San Francisco.

It Took the Jury Only a Few Minutes to Decide That He Killed Minnie Williams—Wild Scene in the Court Room.

SAN FRANCISCO, Nov. 2.—Theodore Durrant, assistant superintendent of Emanuel Baptist church Sunday school, was yesterday convicted of the murder of Minnie Williams, for which he has been on trial since July 22 last. The jury was out twenty minutes and arrived at the verdict on the first ballot. As there was no recommendation of mercy, the punishment was fixed at death. The scene in the court room when the verdict was announced will never be forgotten by those who were present. Judge Murphy finished his charge at 3:30, and the jury at once retired. Although there was supposed to be little prospect of a verdict being returned before 7 or 8 o'clock in the evening, the throng of spectators who

W. R. T. DEBRIANT.

had remained in the overcrowded court room all the afternoon to hear the judge's charge, settled themselves back in their seats to await the return of the jury.

Mrs. Durrant and the prisoner talked and laughed together as if an acquittal were a foregone conclusion. They were joined by half a dozen friends, and the conversation was becoming animated when it became whispered about that the jury had agreed upon a verdict. In an instant a hush fell upon the little circle that had gathered around the prisoner. Durrant's face—always pallid—assumed a ghastly hue, and his mother was speechless. Then the big doors at the rear of the room opened and the jury filed in and took their seats in the box. Judge Murphy, who had retired to his chambers, was summoned, and took his place upon the bench. Clerk Morris asked the usual question as to whether the jury had agreed upon a verdict. Foreman Warren Dutton arose and replied in the affirmative. "We, the jury," he said, "find the defendant, William Henry Theodore Durrant, guilty of murder in the first degree."

As the aged foreman, pale and trembling, read the words that fixed Durrant's fate, a low, rumbling noise, like the roar of a mob, arose from the rear of the court room. The next moment men were cheering wildly, while women wept hysterically in excitement. The bailiff rapped loudly for order, but the tumult continued for a minute before anything like quiet could be brought out of the disorder. Then district attorney Barnes arose and asked that a day be set upon which the sentence of death should be passed upon the prisoner. Judge Murphy said that sentence would be passed next Friday, upon which day he would also set the day for the trial of Durrant on the charge of murdering Minnie Williams.

MONTHLY DEBT STATEMENT.

Government Obligations for October Increased Over Five Million Dollars.

WASHINGTON, Oct. 2.—The monthly statement of the public debt, issued yesterday, shows the debt, less cash in the treasury, to have been, at the close of business Thursday, \$946,431,108, which is an increase for the month of \$5,341,472, which is accounted for by the loss of \$5,457,364 in the cash in the treasury. Following is a recapitulation of the debt: Interest bearing debt, \$77,361,560; debt on which interest has ceased since maturity, \$1,681,670; debt bearing no interest, \$377,335,876. Total debt, \$1,126,379,106. This does not include certificates and treasury notes outstanding, offset by an equal amount of cash in the treasury.

The cash in the treasury is classified as follows: coins, \$143,860,438; silver, \$90,084,128; paper, \$184,447,163; bonds, \$1,000,000,000; etc., \$15,015,155. Total, \$812,377,610, against which there are demand liabilities amounting to \$632,199,612, which leaves a cash balance of \$179,947,998.

ABANDONED NAVIGATION.

Explorer Peary Has Given Up All Thought of Reaching the North Pole.

NEW YORK, Nov. 2.—Explorer Lieut. R. E. Peary, of the United States navy, is expected to report for duty at the Brooklyn navy yard. He has been assigned for duty as a civil engineer in the department of the United States yards and docks. His fellow officers at the yard state that Peary has given up all thought of reaching the north pole and would settle down to routine work in the navy department.

ITALIANS WILL RULE.

At the Next Catholic Consistory Foreign Cardinals Will Be in a Minority.

ROME, Nov. 2.—The next consistory to be held will leave the Italians in a majority of three over the foreign cardinals in the conclave, and, as there will remain only three cardinal hats vacant, the supremacy on the Italian vote is assured. Any possible combination in favor of a foreign candidate for the pontificate. Accounts of the pope's health are highly contradictory, and the truth probably is that he constantly overtaxes his strength, and then induces fainting fits, which alarm his attendants.

TWO CHILDREN DROWNED.

Little Ones Break Through the Ice at Jacksonville, Minn.

JACKSONVILLE, Minn., Nov. 2.—Ada Potter, aged 10 years, and Nettie Wagner, aged 9, were drowned in the Des Moines river in the city limits yesterday. The little Potter girl broke through the ice and her little friend attempted to rescue her. Both were drowned. Two older sisters of the dead girls tried to rescue them, and both broke through the ice. They were gotten out just in time, and by prompt aid were resuscitated.

A "KATY" TRAIN WRECKED.

An Open Switch Near Denton, Tex., Causes a Death and the Destruction of Property.

DENTON, Tex., Nov. 4.—A Missouri, Kansas & Texas passenger train was wrecked near this city yesterday. The engineer was killed outright. The mail, baggage and express cars, and three coaches were wrecked. Thirty-two passengers were injured. The train was loaded with passengers for the Dallas fair. The wreck is supposed to have been caused by a broken rail. Five coaches were derailed and two turned completely over. Sheriff Tombell, of Hill county, had his shoulder dislocated. All of the passengers were more or less bruised, but none badly or seriously injured. The scene of the wreck is a small flag station without telegraph facilities. The derailment was caused by an open switch.

A TOWN IN ASHES.

Confagration at Arcadia, Ia., Which Leaves but One Store.

ARCADIA, Ia., Nov. 4.—Fire wrecked Arcadia last night, and only one store is left in town. It burned over an area of four acres, taking with it six residences and hotels, opera house, one livery barn, one harness shop, two grain elevators, one lumber and coal yard and barber shop, post office, two drug stores, two saloons, three general merchandise stores, one furniture shop, one hardware store, one butcher shop, one vacant store room, one boot and shoe store and four barns. The estimated loss is \$55,000, partly covered by insurance. A high wind was blowing at the time and there were no appliances for fighting the fire.

GROWING WHEAT HELPED.

Its Condition Greatly Improved by the Rain of Last Week.

MINNEAPOLIS, Minn., Nov. 4.—The fall of moisture the past week was confined to Kansas, Nebraska, Oklahoma and the Ohio valley and Oklahoma, says the Modern Miller. It was ample in localities only. Southern Nebraska was visited by a 2-inch shower, which helped the growing wheat greatly. Altogether the plant shows a gain in condition this week, and there is a corresponding decline to note in the progress of corn harvesting. The markets generally are not in as strong a position as one week ago. This is especially true of the larger markets in sections remote from milling centers.

KILLED AT A CROSSING.

Laurin P. Hilliard, one of Chicago's Oldest Citizens, Meets Sudden Death.

CHICAGO, Nov. 4.—Laurin P. Hilliard, one of the oldest residents of Chicago, whose estate is valued at millions of dollars, who lived on the suburb known as Longwood, on the Rock Island and Paulina roads, was driving this morning, attended by his groom, when at Ninety-first street his buggy was struck by a fast passenger train on the Paulina road. Mr. Hilliard was thrown to one side of the street by the force of the collision and was dead when the people who witnessed the casualty reached him. The groom's left leg and several ribs were broken, and it is also feared that internal injuries will result in his death.

WILL BE DISAPPOINTED.

Nimrod in Quest of Territory Game Will Run Against the Order of Uncle Sam.

CHICAGO, Oct. 2.—Large parties of hunters are arriving here from other states to hunt game, which is very plentiful this fall, but all are doomed to disappointment. The government has issued orders prohibiting hunting on the Indian reservations, and the new territorial game law prohibits the taking of any game to outside points, under penalty of a heavy fine and imprisonment, and absolutely prohibits the shooting or capturing of deer.

EARTHQUAKE AT SEA.

Peccant Experience of the Schooner Mary Bump from Unalak.

PORT TOWNSEND, Wash., Nov. 4.—The schooner Mary Bump, from Unalakleet, Alaska, is experiencing a severe earthquake at sea October 24. The captain was in the rigging and the sea was smooth. The vessel began to shake violently, trembling like a frightened fawn, every timber creaking, and the sea became greatly agitated. The phenomena lasted two minutes. On the following day the schooner passed through a large area of apparently muddy water.

A SWEAT BOX FIRE.

Three Men Burned to a Crisp and One Fatally Injured.

NEW YORK, Nov. 4.—Several lives were lost in the fire which started on the second floor of the six-story brick building at 7 Pelham street, owned by Well & Meyer, and used as a sweat-box. Three charred and almost unrecognizable bodies were taken from the ruins yesterday, and one man who jumped to save his life from the flames was so injured that he died at governor hospital.

PRINCELY MUNIFICENCE.

Millionaire Rockefeller Gives Another Three Millions to the Chicago University.

CHICAGO, Nov. 4.—The largest donation ever made to an educational institution at one time by one man was made Saturday. It was the gift to the Chicago university. P. T. Gates, representing John D. Rockefeller, announced to the trustees of the institution that the eastern capitalist had determined to add \$3,000,000 to his already magnificent donations.

WOULD NOT STRIKE.

Employees of the Montana Central Refuse to Obey an Order to Quit Work.

ST. PAUL, Minn., Nov. 4.—A Battle, Mont., special says. It was announced that a general strike would go in effect at 12 o'clock last night on account of the refusal of President Hill to meet the mediation committee of St. Paul. Investigation proves that a strike was ordered to take effect at that hour, but the employees of the Montana central have refused to take any part in the strike, and they have announced that they will not strike under any consideration.

FATALITY BURNED.

Houston, Tex., Nov. 4.—Mrs. Henrietta H. Hennessy was fatally burned yesterday evening. She is 64 years of age, and runs a boarding house. She was lighting a gasoline stove to cook supper, when the oil can exploded, setting fire to her clothes and completely enveloping her in flames.

YELLOW FEVER AT HAVANA.

Washington, Nov. 4.—Reports to the marine hospital service show the continued prevalence of yellow fever at Havana. There were 160 cases and 43 deaths from the disease from October 10 to 31. The percentage of the deaths are in the military hospitals.

REVIEW OF TRADE.

Retail Distribution Fairly Encouraging—Wheat and Corn Declined.

NEW YORK, Nov. 2.—R. G. Dun & Co.'s weekly review of trade says: While the rapid recovery in cotton and the rise in sterling exchange to the point at which the last exports of cotton were made increased confidence, there is a little better feeling retail distribution is fairly encouraging and the closing of many works is less significant at this season than it might be at any other. It is a time of waiting, and uncertainty may naturally continue for some weeks. Wheat has declined 1½c and corn 3½c in spite of many adverse reports about winter wheat. The present large shipments from other countries, the small Atlantic exports, in five weeks only 1,302,961 bushels. Four included against 11,724,000 last year, and the western receipts for five weeks of 27,358,450 bushels, against 23,667,973 last year, affect opinion more directly than ideas about next year's yield. Very large estimates of the crop have depressed prices, although exports have been in five weeks 12,125,000 bushels, against 4,827,660 bushels last year. A fact which has its weight in the wheat market also. Pork and lard are not much changed, though hog receipts and packing are not so active. The heavy wheat and corn movement helps the railroads, but the earnings thus far reported for October, 5.3 per cent, larger than last year, the third week showing a fact which has its weight in the wheat market also. The larger demand for manufactured products has held the price of cotton goods, but even advanced some prices, in spite of last week's decline in cotton. The mills are said to be carrying only moderate stocks. More activity is also seen in iron and steel products.

SHOCKS IN ROME.

Considerable Damage Done by an Earthquake in the Eternal City.

ROME, Nov. 2.—This city was visited by violent shocks of earthquake at 5:40 o'clock this morning. People were aroused from their slumbers and fled to the open squares and the greatest consternation prevailed. The convent of Santa Maria della Vittoria was damaged. A portion of the outer wall was overthrown and part of the ceiling had fallen. The old tower of the observatory was damaged. The shocks created a great panic among the inmates of the prison and a mutiny was attempted by the prisoners. Troops were quickly called to the assistance of the keepers and in a short time the mutiny was suppressed and order restored. Investigation discloses the fact that the damage done by the quakes is much greater than was at first supposed. Four palaces and the Bank of Italy were so shaken that they were rendered unsafe for occupancy. The Palazzo Odescalchi, one of the finest palaces in Rome, and five other structures of that character are also seriously damaged.

IMMIGRATION STATISTICS.

The Commissioner's Report Presents Some Interesting Figures—Proportion of Immigrants.

WASHINGTON, Nov. 2.—Commissioner of Immigration, Col. Stump, in his annual report covering the last fiscal year, shows total immigration for the year 235,531, which is less than any year since 1873. Of these 118,000 were males. The total amount of cash the immigrants brought with them is not less than \$4,000,000, but owing to the form of questions asked it is only known that total cash was not below this figure and it is estimated to be four times this amount, or about \$16,000,000. There were more immigrants from Ireland than from any other country, the total being 46,000, and of these 3,000 could not read nor write. There were 32,000 from Germany and of these only 10,000 were literate. From Italy 23,000, and of these 1,500 are illiterate. From Greece 27, and of these 13 are illiterate. From England 23,000, and 600 are illiterate. The general showing of immigrants during the year, according to the report, much better than for some years.

CLERICAL PERMITS.

Western Lines Reach an Agreement Covering Their Need for Next Year.

KANSAS CITY, Mo., Nov. 2.—An agreement was virtually adopted yesterday by the western roads, covering the issue of half fare clergy permits for the year 1906. It provides for the creation of a new bureau in connection with the Western Passenger association to have charge of the issue of all such permits. This will relieve the roads of an immense amount of clerical labor. It will also reduce to a minimum the possibility of demoralization from the misuse of such permits. All applications for the same must be made to the chairman, who will investigate, and if he finds the applicant entitled to the courtesy sought, will issue a joint permit which will be good on any western road. Each application must be accompanied by a 50-cent fee, which, if the permit is refused, will be returned. The object of this fee is to make the new bureau self-sustaining.

MURDER AND SUICIDE.

A Man Shoots His Wife and Then Himself—His Own Brother Did It.

TIFFIN, O., Nov. 2.—At Green Springs a week ago Albert Fox, aged 28, parted from his bride of a month. Afterward he wanted her to live with him again, but she refused. Yesterday morning he made another request and she refused. As she was walking off he drew a revolver and fired once in the back and a second time in the neck. A third shot he fired at her younger brother, who was with her, but the thickness of his clothing saved him. He then pressed the muzzle to his right temple and sent a bullet through his brain, causing death. The wife is fatally injured.

TOOK FRODOLE AFFAIR.

SPRINGFIELD, Mo., Nov. 2.—At 1:30 o'clock this afternoon Miss Lucy Phelps, daughter of Col. John E. Phelps and granddaughter of ex-Gov. John S. Phelps, committed suicide at her home by taking prussic acid. She was prominent in society circles in the state. The family give ill health as the cause. For four years Miss Phelps was engaged to a well known young man, but the engagement was recently broken off. This, by many, was believed to be the cause, but the young man says that the engagement was broken by Miss Phelps herself.

JAPAN IS GRATEFUL.

Washington, Nov. 3.—Accompanied by Secretary Olney, Mr. Kurino, the Japanese minister and his secretary of legation, called upon President Cleveland at the white house to-day by appointment just before the cabinet meeting and presented to him an autograph letter from the emperor of Japan, expressing in graceful and sincere terms his appreciation of the good offices exercised by the United States government to bring about the restoration of peace between Japan and China and for the protection accorded to Japanese residents in China.

EARTHQUAKE SHOCKS.

The Whole Mississippi Valley Receives a Trembling Up.

KANSAS CITY, Mo., Nov. 1.—From the best accounts the earthquake yesterday came in two shocks. The first occurred at exactly 5:12 o'clock. It was a wave movement. The second shock came about thirty seconds later and had a lateral action. Upon the authority of those who were awake at the time of the first shock, there was a distinct rumbling noise at the beginning of the "quake." No one was reported injured, and as far as can be ascertained, little damage was done to property. The prisoners in the county jail were probably the worst scared people in Kansas City. The earth's trembling awoke many of them, especially the colored prisoners, and their cries of fear soon had the whole jail in an uproar. The more logical ones, however, soon spoke the real cause of the trouble and the jail became quiet again.

At St. Louis the vibrations were from east to west and each shock continued several seconds. The operators in the Western Union telegraph office became alarmed and several rushed from the building. The shocks were not accompanied by any rumbling noise. Clocks were stopped and windows rattled, but no serious damage has as yet been reported.

CHARLESTON, MO., MANY CHIMNEYS TOPPLED OVER AND PLATE GLASS IN SEVERAL STORE FRONTS WERE BROKEN TO BITS.

The brick Methodist church was badly shattered and the plastering knocked from a hundred or more interiors. In the country 4 miles south of the crest of the earth was broken in fifty places and from the fissure water and sand are gushing in distinct volumes. The same phenomena are reported in the district still further south and also at Big Lake, several miles north of town. This is a part of the old seismic region which was overwhelmed and nearly destroyed by an earthquake eighty years ago.

Despatches from all over Missouri stated that the shocks were felt, but no great damage was done.

At Louisville, Ky., three terrific shocks were felt at 3:15 yesterday morning. The first shock was preceded by a mighty roar, like that of distant thunder. The shock lasted fully twenty seconds, and a second and third shock, not quite so violent, lasted about twelve seconds. The vibrations were from southeast to northwest. The tall buildings in the city were violently shaken. The Courier-Journal building rocked heavily and the desks and railings in the counting room swayed as if they would turn over.

INDIANAPOLIS, CINCINNATI, NASHVILLE, TENN., AND IN FACT, ALL OVER THE MISSISSIPPI VALLEY FROM CHICAGO TO THE GULF OF MEXICO AND FROM OHIO INTO ARIZONA, THE SHOCKS WERE FELT.

At Indianapolis, Cincinnati, Nashville, Tenn., and in fact, all over the Mississippi valley from Chicago to the Gulf of Mexico and from Ohio into Arizona, the shocks were felt, but no serious damage is reported.

THE CHAIN TIGHTENING.

Holmes' Former Wife Gives Very Damaging Testimony Concerning His Crime.

PHILADELPHIA, Nov. 1.—For about thirty minutes yesterday the nerve which all men have marveled at for some time, the case of John Holmes, who shot his wife and her maid, and then killed himself, was being retried. The case progressed so swiftly that but few witnesses remain to be heard before the closing of the commonwealth's case. The defense will open, and in spite of Holmes' statements that he would himself testify and also call Miss Yokey, his counsel privately stated last night that the defense would offer no defense, but submit the case on argument alone. The attorney expressed confidence in his acquittal.

LEADS NEW YORK.

Chicago Ahead of the Empire City in Several Branches of the Post Office Registry Service.

CHICAGO, Nov. 1.—Perry H. Smith, the chief of the registry division of the Chicago post office, yesterday received the official report of the registry service from Washington, which put Chicago ahead of New York in four branches of the registry service. In the number of registered pouches in transit, Chicago is reported with 142,104, while New York has 79,887. In the through registered pouches Chicago exceeded New York by 11,000 pouches. In the number of registered pouches in transit, Chicago is reported with 142,104, while New York has 79,887. In the through registered pouches Chicago exceeded New York by 11,000 pouches. In the number of registered pouches in transit, Chicago is reported with 142,104, while New York has 79,887. In the through registered pouches Chicago exceeded New York by 11,000 pouches.

PROF. BLAKE'S DISCOVERY.

The Kansas Scientist Believes That He Has Found a Remedy for Diphtheria.

LAWRENCE, Kan., Nov. 1.—Prof. L. Blake, of the Kansas university, has discovered a remedy and preventive of diphtheria, if the results of experiments already tried are to be relied on. It is a mixture of salt and water, about two-thirds of the weight of the mixture being salt through which an electric current has been passed. This current produces a floc of oxygen and ozone in an active state. The mixture is used as a gargle. The treatment has been tried in a number of ways and has been found to instantly and completely kill microbes wherever found.

MONKS DIED OF FRIGHT.

A Bomb in a French Monastery Causes Death and Damage.

MADRID, Nov. 1.—A bomb was exploded yesterday in the monastery of Corbuela, in the province of Biscay, resulting in great damage. Several of the monks have died of the fright caused by the explosion. The author of the outrage is unknown. At Corbela, in the province of Valencia, a mob stoned a rosary procession and the crowd of the image of the Virgin carried in the procession was broken. Great excitement was caused by the disorder. Several persons were wounded.

AGAIN IN COURT.

The Trouble Between a Catholic Bishop and Two Priests Breaks Out Anew.

NEW YORK, Nov. 1.—The long drawn-out fight between Bishop Bonann and his priests, which has resulted in that prelate being in the police court for criminal libel, and the removal of many priests, was renewed yesterday when a diocesan court convicted Father Fitzgerald and Murphy and expelled them from the diocese for defying the bishop. Bishop Bonann insisted and the bishop's men assert that they are the victims of a packed jury.

A Cameo Worth Fifty Thousand Dollars.

One of the rarest and most valuable cameos in the world is now in the museum of the University of Pennsylvania, in Philadelphia.

It is a head of Jupiter-Ereos, exquisitely carved from a single chrysoapse, and is seven inches long by nearly five inches in width. It dates from the second century A. D., and is said to be the finest specimen of cut chrysoapse now known to exist. The antiquarians prize it above that price because it shows both the oak leaves and the eagle, or armor, a combination known in only two or three other representations of Jupiter. This rare gem is valued at \$50,000 and is a part of the famous Somerville collection. — St. Louis Republic.

SYMPTOMS OF PARALYSIS.

From the Call, Lincoln, Neb.

DOUGLAS, Neb., May 8, 1895.

Dr. Williams' Medicine Co.,

Schenectady, N. Y.

GENTLEMEN—This is to certify that I am a resident of Douglas, Otoe County, Neb., and an eighty years of age. I have been an almost constant sufferer nearly all my life. Of late years I have had severe pain in my back and limbs, with numbness and prickling sensations in the extremities which some physicians pronounced symptoms of paralysis.

Last fall, having heard through friends of the virtues of Dr. Williams' Pink Pills for Pale People, I purchased a half dozen boxes and began taking them according to directions.

At this time the action of my heart was giving me great anxiety. Its pulsations were weak and uncertain, with palpitation and very alarming symptoms upon the least excitement or over-exertion. Headaches and home sickness were of frequent occurrence.

In a very short time after beginning treatment with the pills I began to feel their effect. The numbness became infrequent and less severe, when I began to feel the benefit of the pills. I experienced a general feeling of health so that I felt twenty years younger. I felt so much better that the six boxes were gone and that I discontinued treatment altogether.

With the advent of spring and warm weather I began to feel a return of the old symptoms, to some extent, so purchased six more boxes of your pills from Messrs. C. C. Clark & Co., of Syracuse, Neb., which no doubt will have the same good effect the first lot had.

Mrs. R. M. W.

Dr. Williams' Pink Pills for Pale People

are now given to the public as an unfailing blood builder and nerve restorer, curing all forms of weakness arising from a watery condition of the blood or shattered nerves. The pills are sold by all druggists, or will be sent post paid on receipt of price (50 cents a box, or six boxes for \$2.50) if they are never sold in bulk or by the 100, by addressing Dr. Williams' Med. Co., Schenectady, N. Y.

Cashmere Shawls.

Genuine cashmere shawls are so fine that one measuring three or four square yards could be stored within the shell of a small walnut. But an even more delicate fabric is manufactured on the Philippine islands from the fibers of pineapple leaves.

To properly prepare the fibers for weaving involves much tedious work. For instance, the tiny fibers are tied together by hand to suitable lengths. The weaving of a quantity sufficient for one shirt is a labor of several years, and so it is no wonder that such a shirt costs about \$1,500, but the rich planters of Manila and Luzon—slaveholders yet—can afford to indulge in such extravaganzas. —Chicago Times-Herald.

Robb's Disappointment.

Mrs. Yalsby was entertaining some ladies at a select little five o'clock tea, and Robb, who had been exceptionally well behaved, was in high feather.

"Ma," he said, as cake was being handed round, "may I have some tongue, please?"

"There isn't any tongue, Robb."

"That's funny," commented Robb.

"I heard pa say there would be lots of it"—Tid-Bits.
